

Guide

Welcome to

HackIn

CSE Internal Hackathon.

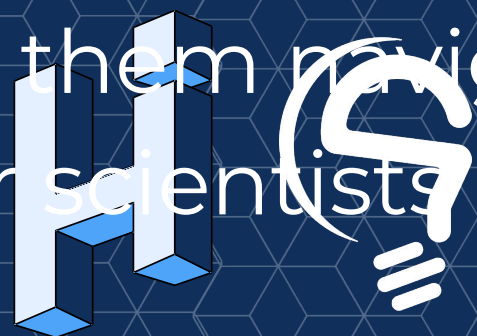

What is hack in

HACK IN is an internal hackathon organized by the Scientific Club of ESI -CSE- and its goal is to gather the club's community in an event where the serious and the fun are combined. Our team worked hard to determine and create a suitable atmosphere for students, newer programmers, and even seasoned professionals to meet like-minded individuals, form teams with them, collaborate, and come up with creative solutions.

Not only do participants get the satisfaction of creating a useful product during the hackathon, but in the course of that process, they'll acquire a lot of knowledge, embrace new technologies and develop their programming skills to help them navigate through their journey as software engineers, computer scientists or any other technology engineering field.

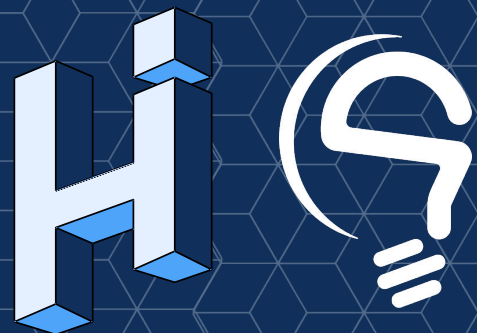

Date and Venue

06th to 08th February 2025 ESi

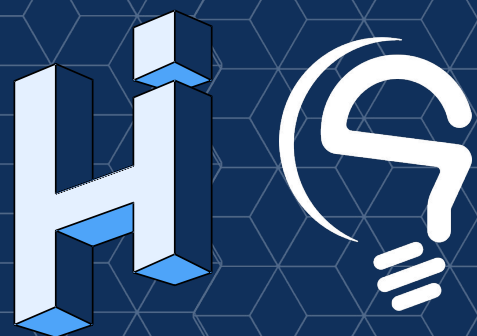

AGENDA

Day 2

Breakfast
Front-End Workshop
Pause Prayer
Git Github Workshop
Break and Fun Activities
Break and Fun Activities

Things you should bring

You should bring your ID card and anything you'd need for a productive and healthy weekend: A laptop, a charger, a change of clothes, your pillow and a warm blanket or any sleeping equipment, and your own food for lunch and dinner. Snacks will be provided.

Code of conducts

HACK IN 6 is intended for collaboration and learning within the student community, we value the participation of each member of the student community and want all attendees to have an enjoyable and fulfilling experience.

The event is only accessible to CSE members. An ID card must be shown if demanded by organizers. Participants are required to follow the organizers' instructions. Participants are responsible for their actions out of the organizers' instructions.

By accepting this code of conduct participants also authorize CSE's photographers to take photos and videos of them during this event which can be published on the club's official social media pages.

All rights are reserved to CSE club scientifique de l'ESI & Ecole nationale supérieure d'informatique.
